THE HIGHLANDER 1963

VOLUME II

HIGHLAND HIGH SCHOOL

GRANGER, OHIO

FOREWORD

As we turn the pages of this yearbook, it brings to mind many memories of our past years at school, and also opens the doors of tomorrow. We are now standing on the threshold of accomplishment. Who can predict our impact on tomorrow's world?

This alone challenges us to set our goals high, grasp opportunity, give service, and face life with hearts filled with courage and hope.

To preserve a record of the moments and countless experiences of high school days, the Highlander strives to capture the eyes and mind of the scholarship, the leadership, the activities, and the character of Highland High School.

ALMA MATER

Oh, Highland High School now to thee,
We sing our song of loyalty!
We sing thy glory and thy fame,
All praises to thy honored name.
Come and join us while we sing,
We'll make the near-by hillsides ring.
Our faith in thee will never die,
We'll always love thee, Highland High.

CLASSES

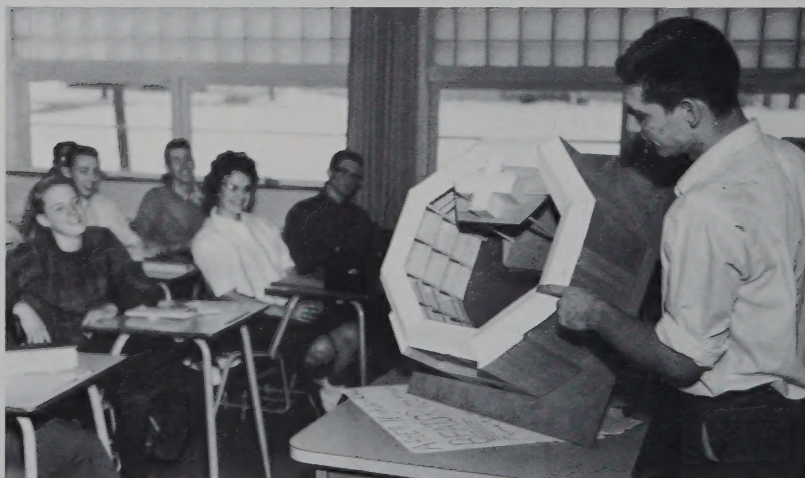

The students of Latin I listen attentively to Latin recordings.

Although not many of us like to take English, it is needed for communication with the rest of the world. The more English background you have the better you will do in the future when you will find a need to express yourself intelligently.

Highland is fortunate to have three exceptionally good English teachers. Mrs. Heath teaches English I and II. She tries to bring in every phase of English to her classes. Mrs. Ludwig teaches Speech, and English I and IV. She stresses grammar and oral work in her classes. Mr. Schleider teaches English I and III. He tries to get the students to express themselves clearly in both oral and written work. Each one of these teachers will help you build a better background in English.

Spanish expression is displayed by these students.

OCEANS ARE BRIDGED BY LANGUAGE STUDY

The structure of the Globe Theater is explained by Tim Hood to the senior English class.

The understanding of world problems is gained in world history.

Studies which deal with the association and activities of human beings are called social studies or social sciences. World History and American History are only two of these. This group also includes Sociology, Economics, and Government.

Students often ask, "Of what value is History?" History gives us an acquaintance with the past and helps us understand people. History also has great cultural value and helps us set up high ideals.

Our History department is under the supervision of Mr. Karl Haerr, Mr. Albert Kahl, and Mr. Jerry Sigrist.

Map study is presented to two American history students.

The process of American government should be taught to and understood by all.

FUTURE IS

BY REVIEW
OF THE PAST

The procedure of enameling is explained by Mrs. Melrose.

Draw, my friend, draw. Draw what you see, for what you see has beauty in it."

One can only draw or sculpture or design if one knows the fundamentals that are the basis of these arts. Here at Highland, Mrs. Melrose teaches the students to think for themselves and to express themselves clearly.

Such fields as silk screening, enameling, ceramics, portrait drawing, and oil painting are offered.

Each year the students have a chance to compete in two art contests; Akron Scholastics and The Medina County Art Contest. So for Highland has done very well at both.

Various forms of composition are taught to students of art.

BETTER DRIVERS THROUGH TRAINING

Mr. Schindler explains the basic fundamentals of a car's operation.

To drive safely, wisely, and correctly are the goals of the driver's training class. Mr. Max Schindler teaches the students not only how to drive correctly and to follow rules, but also how to drive defensively. They learn to recognize the different parts of the car, so when the time comes they will have the knowledge to know what to do and when to do it in case of an emergency. Mr. Schindler tries not only to teach the students how to drive safely, but to understand the mechanics of their vehicle.

A well-rounded student is one who uses his time according to his interests — one who understands that life is not all drudgery and yet not all carefree bliss.

This is the purpose of the music department at Highland. By joining chorus, glee or band, the students find a diversion from serious study while they also develop an appreciation of music.

Mr. Eckart is the band director and Mr. Herold teaches chorus and glee.

Practice makes perfect.

MUSIC STIMULATES THE SOUL

Mr. Herold directs the boys' glee.

A theory is displayed to the class of solid geometry.

DEEP THINKING
ENCOURAGED
BY MATH

The basic fundamentals are explained in general math.

Highland High School has two men on its faculty, whose primary purpose is to teach the mathematics offered. Mr. Robert Vitchner teaches algebra I and II, plane and solid geometry, and trigonometry. Mr. Terry Davis teaches general math. While Mr. Davis teaches the fundamentals, Mr. Vitchner specializes in the college preparatory maths. The main purpose of the mathematical department is to broaden men's mind, to show him the fundamentals, and to guide him into paths of the future.

Graphs are one of the many subjects covered in Algebra II.

SCIENCE STIMULATES STUDENTS

Lab plays a very important part in the teaching of a scientific subject.

Girls of a general science class examine a stone display.

The science department is composed of General Science, which is required for all students, and more selective courses of Biology, Chemistry, and Physics. Mr. Tanner teaches General Science and Mrs. Weigle teaches the latter three.

"Seeing is believing", so the science class performs many experiments to help the students learn. Dissecting insects and animals, mixing compounds, and finding the results of principles, are common practice in Biology, Chemistry and Physics respectively.

The purpose of these classes is to interest the student to study further into a field of science and gain a thorough knowledge of the world around him.

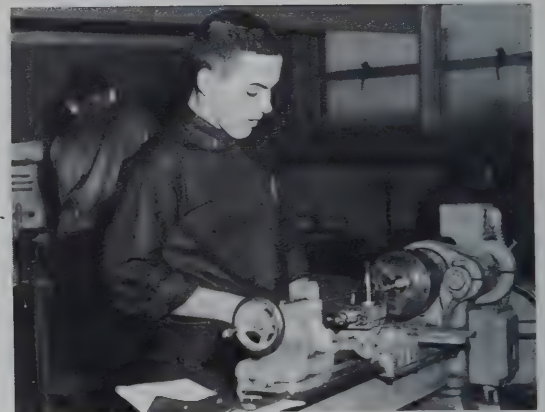

The chemistry class busily calculates a problem.

The art of dressmaking is being accomplished by these girls.

VARIETY PROVIDED IN ARTS

A mechanical arts project is worked on by Ted Swain.

Industrial arts is a course designed for fellows who enjoy expressing themselves in wood and metal-working, and who are intrigued by a machine and its function.

Mr. Harmon enjoys helping students learn safety while developing a skill. Each boy is free to express himself through the projects he does. Much satisfaction is gained through making an object of lasting value.

The mechanical drawing students work hard at their problems.

Typing is essential not only for business but college, too.

The commercial department is as important to the function of school life as the members of it will some day be important to the progress and success of the business world.

This department is responsible for the printing of bulletins, programs and various other printed material used during the school year.

Students begin their basic commercial training in their Sophomore year with general business, shorthand I, and typing I. Their Junior year offers advanced training in typing II and shorthand II. Bookkeeping may also be taken if desired during the Senior year. Office practice combines all phases of office work already learned and widens projects and activities to make this knowledge workable.

The responsibility of teaching the commercial students lies in the hands of Mrs. Jean Myers and Mr. Martin Kemp.

The general business class listen attentively.

These girls are engrossed in mastering shorthand efficiently.

BUSINESS
WORLD
CONSIDERED
BY STUDENTS

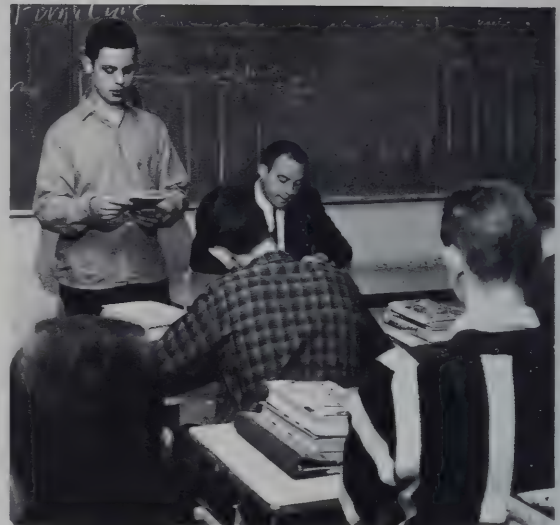

Basketball is mastered by the girls in physical education class.

"Ready! Let's do jumping jacks; one, two, one, two".

This is a familiar statement used by Mrs. Grace Berlo and Mr. David Beckman, the heads of the Health and Physical Education departments. Its purpose is to build good character, strong minds and healthy bodies. All students are required to take three years of Physical Education and one semester of Health.

Health was instituted into our school last year. This course, a fundamental one, acquaints the students with the basic requirements for and a wider knowledge of good health and its importance.

Gene Woodling gives a report to the boys' health class.

Can you tell who has the football?

ADMINISTRATIVE AND FACULTY

BOARD OF EDUCATION

The ultimate progress of any school system lies in the sincere devotion that each member of the school board has in reference to their chosen responsibility. Highland High School can indeed be proud of its school board which is rightfully the prime source of motivation for progress.

ADMINISTRATION

Mr. L. O. Vermillion
Superintendent

Students are often prone to think of a principal as gruff in manner, above communication, and overly strict in discipline. This is not always true.

A critical examination of Mr. Richard W. Chaffee reveals that the students of Highland High are particularly fortunate in having him as principal. His sincere interest in all problems, and his firm and resolute hand guiding the students through these nebulous years will insure that memories will be pleasant. The association with him will always be remembered as one of the meaningful experiences in a student's life.

Mr. Lewin O. Vermillion is local superintendent of schools. Upon his shoulders rests the responsibility of managing the Highland School system. He coordinates the various activities of all four schools, is supervisor of instruction, has charge of transportation, and along with the board of education sets up the school budget.

Although busily engaged with his administrative duties, he finds time to speak to students, attend athletic and social events, and sponsors a junior class student at the Annual World Affairs Institute.

Mr. R. W. Chaffee
Principal

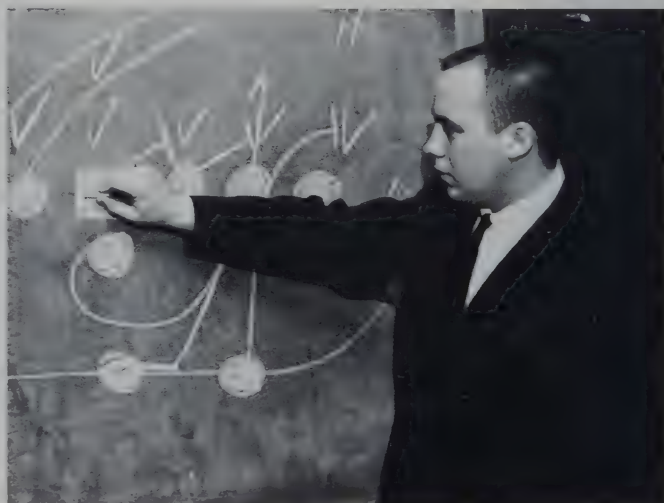

The Dewey Decimal System is a most important function to any library, and Highland's is no exception. Mrs. Margaret South graduated from West Virginia University, where she received an A.B. in History. She also acquired an M.A. in Library Science from George Peabody College. She advises the Freshmen to "take advantage of every opportunity that is presented to you." To Seniors her advice is to remember "It takes only a minute to make a mistake that sometimes takes a lifetime to correct."

Football and Dave Beckman are two nouns that are almost synonymous. Even before the school season starts, he and the Highland football team can be seen putting in many hours of rugged practice. Mr. Beckman is the head football coach. He also is the coach of the Junior Varsity basketball team and in the spring, track coach. He graduated from Baldwin-Wallace College with a B.A. in Physical Education. Sophomore health and all boys' physical education are the classes which he instructs. Mr. Beckman is also a Senior class advisor.

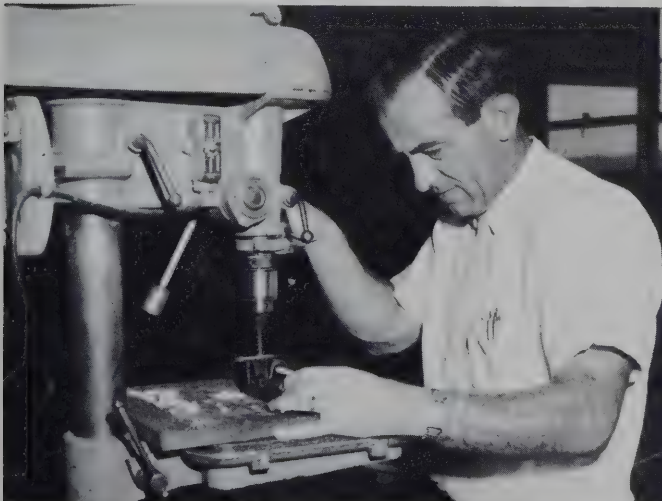

Mrs. Grace Berlo teaches girl's physical education and Girl's Athletic Association and the cheerleaders. Mrs. Berlo attended Otterbein College from which she received a B.S. in Education. If she could spend her summer vacation any way she wanted, Mrs. Berlo would like to visit Rome and the Holy Lands. Her advice to graduating Seniors is: "Do the very best you can and use whatever you have learned to better yourself and your community."

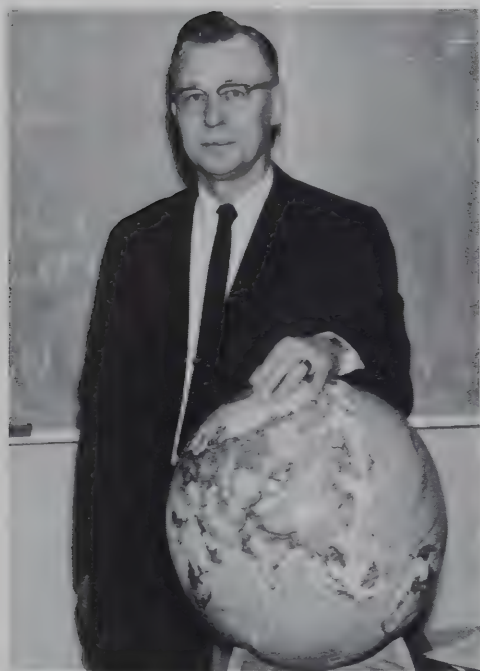

Mr. Roy Gienke got his B.S. and Masters degree at Kent State. He is guidance counselor and athletic director for the high school and is the Junior High Principal. He likes all kinds of sports and enjoys reading historical novels. As with most men, Mr. Gienke's pet peeve is women drivers. When asked what he would be doing if he wasn't a teacher he said he'd be an opera singer.

Mr. Al Harmon is the teacher of manual training. He graduated from Kent State University with a B.S. in education. He is a Senior advisor, scouts opponents for football and runs the score board for basketball. He advises the Freshmen to set a goal in life; use President Kennedy's proverb, "What can I do, not what are people going to do for me." He enjoys teaching and working with young people who are willing to learn.

"Students not supporting school functions", is a pet peeve of Mr. Karl Haerr. He is a recent graduate of Baldwin-Wallace College and holds a B.A. in Education. He instructs students on the subjects of American history and consumer living. Mr. Haerr, a sports enthusiast himself, has taken charge of Highlands extra curricular physical fitness program. He can be seen working with these boys after school trying to develop their physical growth, attitudes, ideals, and appreciation.

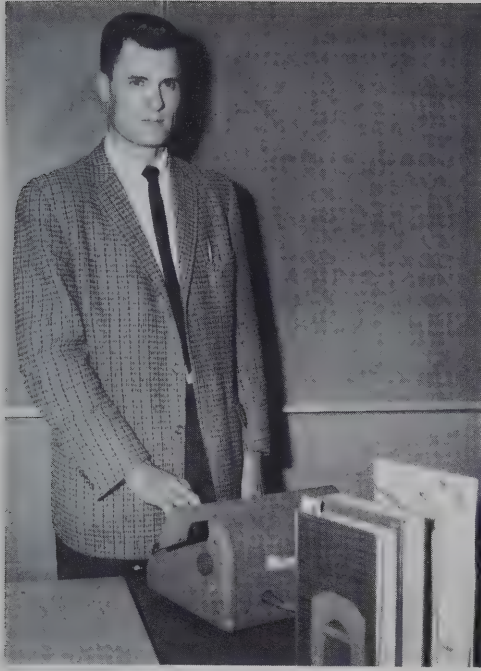

Mrs. Jill Heath teaches freshmen and sophomore English at Highland High. She graduated from Otterbein College where she obtained a B.A. in Education. Mrs. Heath's outside interests include watching football, bowling, and reading. Her most rewarding experience obtained from teaching is, "to get a point across and to know that I have helped students to understand." Mrs. Heath tries to bring in all categories dealing with English to make a sound and more enjoyable English program.

One of the best ways to enjoy history is to venture to places of fame and interest. Doing just this is one of Mr. Albert Kahl's chief interests. Mr. Kahl acquired a B.S. in Education at Kent State University. He instructs world history classes and is an advisor for the Sophomore class. He also advises the chapter of National Honor Society. A well experienced historical background helps prepare a person for a more enlightened future.

Mr. Richard Herold is kept busy throughout the school year directing the chorus, and both boy's and girl's glee. He directs three ensembles at the high school and is the music director at the junior high. He graduated from Ashland College with a B.S. His big project for this year has been raising funds to purchase robes for the chorus. Mr. Herold enjoys all sports, especially swimming and finds working with electronics an excellent hobby.

Highland's baseball coach would spend a million dollars, if offered to him, dabbling in the stock market and traveling to Africa. Mr. Martin Kemp holds a B.S. in Education from Ashland College. He is one of Highland's commercial teachers and instructs shorthand I and II, bookkeeping, office practice, and general business. In addition to being baseball coach, he is also the Freshmen basketball coach, and a Junior class advisor. If Mr. Kemp had not decided to devote his career to teaching, he would have liked to have been an accountant.

Art is both a vocation and an avocation for Mrs. Beverly Melrose, head of Highland's art department. Besides her full-time career of teaching art at our schools, Mrs. Melrose's spare-time interests and hobbies are centered around art as well. Mr. Melrose is a graduate of Kent State University, where she received a B.A. in Art. She is the person responsible for the good-looking arrangements on the front bulletin board and the notably attractive display case. Her advice to the students is, "obtain as much education as possible, and when an opportunity presents itself, take it, for these come far apart, with few between."

Mrs. Mary Lou Ludwig received a B.A. in Education from Western Reserve University. Teaching has always been one of her main goals. This year at Highland she teaches freshmen and senior English and speech. She is head sophomore advisor and directs both the Junior and Senior class plays. Her advice to Freshmen is to prepare to learn eighteen lines of a unique poem and plan to use the midnight oil on a term paper. Her advice to all students is "Students should work up to their capacities. There are so many who do 'just enough to get by.'"

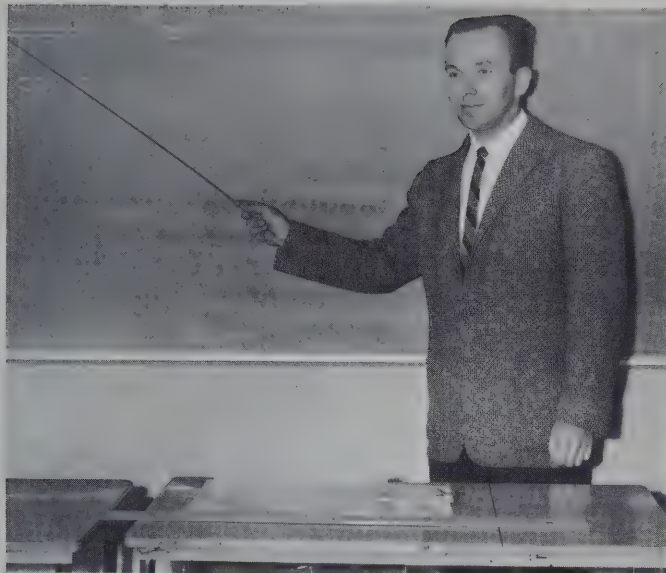

Anyone who has ever been absent has become acquainted with Mrs. Jean Myers for she signs the admissions to class for the absentees and keeps the attendance records. She is a graduate of Kent State University, where she received a B.S. in Education. Mrs. Myers is "la profesora" of both first and second year Spanish. She also teaches typing I and II. She is head advisor of the Senior class, the Annual staff, and the secretarial assistants. Do you know what she would do if she had a million dollars?" . . . Take all my Spanish classes on a field trip to Mexico."

Mr. Al Schleider teaches English I, English III, and Journalism. He graduated from Kent State University with a B.S. in Fine and Professional Arts. He likes teaching because, "It does not tax me physically and I like working with teens. It gives you a chance to be a teen-ager again." He is the newspaper staff advisor, and a Junior class advisor. "To be ordinary is easy; to excel takes work." This is the advice Mr. Schleider offers the Seniors.

Mrs. Julia Northey is a newcomer to Highland. First and second year Latin students are taught by her. She attended Wheaton College where she received her B.A. in Education. Her pet peeve is listening to students' excuses about why work isn't done. She feels that one of the advantages of teaching is that the contact with younger people helps to keep a person and his ideas young. When not teaching, Mrs. Northey enjoys gardening, sewing, and reading.

"Your education has just begun, live it up, enjoy life," is Mr. Terry Davis's advice to the seniors about to enter the big world. Mr. Davis teaches general math and mechanical drawing. He also advises the Freshman Class. He has attended Akron University and Kent State University where he received his Bachelors' Degree in Industrial Arts Education. After his liberal education, he has found this to be true; "The more you learn, the more you realize what you don't know." When asked what bothered him more than anything in teaching Mr. Davis replied, "Students who refuse to learn!"

Mr. Jerry Sigrist, Highland's American government and Sociology teacher graduated from Ashland College with a B.S. in Education. He decided to become a teacher, with the advice of his parents, when he was a Senior in high school. He says there is very little he dislikes about teaching. He finds it satisfying to see the student grow in mental stability and know that he has been of help.

Mr. Max Schindler is Highland's driver's training instructor and completes his schedule by being a study hall teacher. He graduated from Bowling Green University with a B.S. in Education. His extra curricular activities include being football line coach and coaching the varsity basketball team. He advises the seniors, from experience, to plan wisely, not for the present, but for what the present will lead to. Mr. Schindler's pet peeve is hot coffee and one of his greatest desires is to visit Hawaii and Africa.

Science, in addition to music, is an interest of Mr. Lester Eckart. A field of science would probably have been a second choice for him if he had not been a teacher. At Baldwin-Wallace College he earned a Bachelor's degree in Music Education at the University of Michigan. Interests of his include working on his car, listening to hi-fi music, and watching pro-football and basketball on television. Not only does he direct the band, but he also gives private lessons to those who wish to widen their musical knowledge.

Through very much patience and determination a Science Club was begun at Highland High. Most of the credit goes to Mr. Richard Tanner. He graduated from Ohio University with a B. S. in Education. Mr. Tanner instructs all Freshmen science classes and also is head advisor to the Freshmen class. His favorite proverb and guide is "If you desire to have anything done right, do it yourself." The scientific field is open to all interested students and presents challenging experiences.

Mrs. Troup, who graduated from Ohio State University with a B.S. in education, is in charge of the Home Economics department. She is also an advisor of Y-Teens. Her favorite pastimes are sewing, knitting, and reading. Her advice to incoming Freshmen is, "Study before it's too late." She first decided to become a teacher when a Junior in high school. Her pet peeve is chewing gum and girls combing their hair in class.

"Never give up, always do your best, learn from your mistakes, and endeavor to improve." This is the advice Mrs. Rowina Weigle offers to all students. Mrs. Weigle received a B.A. from Western Reserve University and from Baldwin Wallace she obtained Science Comprehensive. She is the teacher of physics, chemistry, and biology. She is the head advisor of the Junior class and the advisor of the Future Teachers of America. Her pet peeve is students who say "Does it have to be?"

Sports of all kinds are the main interests of Mr. Robert Vitchner. He is a graduate of Ohio University, from which he obtained a B.S. in Education. Mr. Vitchner is Highland's teacher of trigonometry. He is also a Freshman advisor. His advice to the Freshmen is to "make the best use of your four years of high school," while he advises the Seniors to "look forward to more training and education, and get as much of both as possible."

Mrs. Webster, the secretary of Highland High, is a very important part of the operation of the high school. She graduated from Hammel Business College after completing their secretarial course. Her hobbies and interests include sewing and church work. She also stated that if she were not a secretary, she would like to work in an American embassy abroad. Sometimes it seems that this could not be much more adventuresome than working in Highland high school.

Mrs. Underwood, Mrs. St. Clair, Mrs. Stein, Mrs. Kraus.

The job of planning, preparing, and serving the delicious meals which are served in Highland's cafeteria is shouldered by our cooks. This year has seen some of the most varied and tasty meals that Highland has yet known.

COOK AND CUSTODIANS

It has been noted that the way a home or building is kept is a reflection of the type of people who occupy it. The custodians do the perpetual job of keeping Highland an attractive, well-kept school. To have pride in a school and its condition is necessary and the janitors of Highland work diligently to keep it a school of which each student can be proud.

FUTURE TEACHERS

A scientific explanation of kilowatt hours is given by Dave Cobb to this seventh grade class.

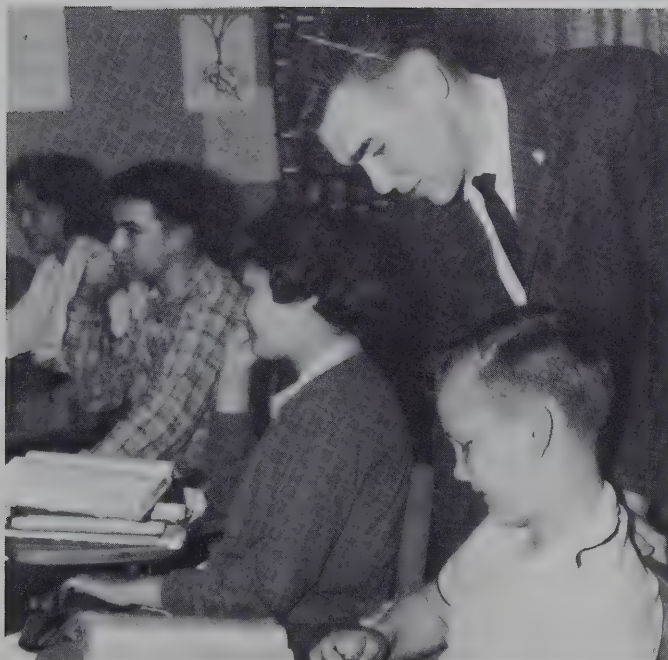

AT WORK

Judy Henry is seen helping a girl seek information from the materials of the library.

Each year the Future Teachers Association ask the teachers of the elementary and junior high schools for the privilege of spending a day with their particular class. The first day is spent observing, the second working with the children and teaching some of the classes. The purpose of this student teaching is to give a taste of the business and maybe lead more students into the field.

NEW MEMBERS ARE

The National Honor Society is an honorary club which strives for the betterment of the school through bettering students in the fields of Service, Scholarship, Leadership and Character. The students are picked by the teachers according to those who excel in these four fields. The neophytes are picked at the end of their sophomore year and are placed on probation for a year. Mr. Albert Kohl is the advisor of this club. The N.H.S. encourages better scholars and leaders by awarding plaques to top homerooms and presenting a formal initiation for new members.

STAFF WORKS TO MEET DEADLINE

The annual staff is composed of two main divisions — the advertising staff and the production staff. The work of the advertising staff is concentrated in the beginning of the school year. Each member of this staff spends much time procuring ads for the annual which will keep costs to a minimum. The production staff's work involves the intricate job of putting the copy and pictures into a proportioned pattern. Each page must be precisely planned; pictures and copy must balance. Each step in formulating the material is a slow one and takes diligence to achieve a gratifying product. The students who compose the annual staff are to be commended for their hard work. It is an honor to be one of these students. Special recognition should go to Judy Henry, *Copy Editor*, and Kathy Legan, *Typing Editor*, who spent many extra hours planning, writing, and typing for the purpose of adding the finishing touches to the annual. Under the direction of Mrs. Myers, *Advisor*, and Pat Cekanski, *Editor*, many hours of work result in the 1963 Highlander.

NEWSPAPER KEEPS STUDENTS INFORMED

The Newspaper Staff, with the Journalism class as its core, assembles and publishes the "Headliner". These students, mostly underclassmen, write the assignments made by the editors and provide a vital part of the paper. The page editors, made up of the Seniors in journalism class, write some of the stories, put them together, and paste up the layouts. Mr. Al Schleider, a former newspaper and magazine worker, advises the staff.

Reporters: Joyce Ardy, Mary Jo Ludwig, Linda Kaufman, Russel Ford, Kathy Cekanski, Cindy Frase. *Seated:* Linda Barron.

COUNCIL REPRESENTS STUDENTS

The student council is made up of the following representation: class presidents, club presidents, and home room representatives. The council acts as the bridge between the administration, faculty, and students for the purpose of developing better understanding and interpretation of school procedures.

It acts as a planning board for the Homecoming dance, sock hops, Stunt Night, Christmas decorations, Club "63" dance, and the Field Day. It also is responsible for the ice cream vending machine. Any revenues the council accumulates are put back into the school in various worthwhile projects. This year money has gone for the installation of the Announcement Board donated by the Class of "62", records for the various sock hops, stoles for the new choral robes, and are now working toward the financial means to complete the basketball-tennis court combination project.

"Is he . . . is he . . . safe!" — *Junior Class Stunt*

Stunt Night is an event looked forward to by everyone. A lot of hard work is needed for its presentation. This year the National Honor Society won the first place prize of ten dollars. Second place went to the Juniors and the Seniors took third. A Roman football game presented by the Y-Teens got fourth. The event is sponsored annually by the Student Council and all classes and organizations participate.

The male runners wait with anticipation in the mile relay.

The sack race brings humor and skill to the events.

A totaled record of 55 points won the field day activities for the senior class. They proved their skill in various events such as sack races, football toss, relay races, and undefeated again since freshmen, the tug-of-war.

Come on seniors, pull'em over again!

Bill Ranftl shows his support of his party.

Each year the three government classes turn campaign managers for the candidate running for the new student council offices. A lot is learned about democracy and politics, and everyone has a lot of fun doing it.

How much effect has the campaign had on this voter? The result will soon be known.

Joyce Ardy, Pat French, Kathy Pay, Karen Finding, *Head Majorette*.

Under the direction of Mr. Lester Eckart, the Highland High School band performs at football games, parades, the Medina County Fair and Bond-o-rama. Students in all grades are eligible, after short try-outs, for both concert and marching band. During concert season the band gives a winter and spring concert. With the band are smaller groups including ensembles, pep band, brass sextet, and dance band.

Every organized body of people needs leadership. The leadership of the marching band is provided by the majorettes. They strive to be an advantageous constituent of it, not only to keep it in line, but to add vivacity, vitality, and varnish to the band. Their poise and skill accompanied many wins for the team this year.

ENSEMBLES

Each year, Mr. Richard Herold, the chorus and the glee clubs work together to present a spring and winter concert. The groups sing a variety of musical selections. Hard work goes into the preparation of these programs, and a great deal of enjoyment is shared by all.

The highlight of the football season, Homecoming Weekend, is always filled with joy and enthusiasm. The Queen and her court, along with all spectators have high hopes for a victorious football game. Highland and Brunswick ended this year's in a 14-14 tie.

Everyone anxiously awaits the excitement of the evening after the game, which brings the semi-formal dance and the crowning of the Homecoming Queen.

Everyone, including teachers and alumni, enjoyed this gala weekend.

ASSISTANTS

AID

SCHOOL

It was once said that if all the typewriters in the U.S. would remain unused for one day, business would come to a standstill. The job of a secretary is, as can be seen, one of significance. The secretarial assistants at Highland spend much of their time planning, typing, and mimeographing the programs for our assemblies, club activities, and community groups. They also do secretarial work for teachers and for the school office. This group is made up of girls who are planning to become secretaries, and who are chosen from those who have the highest averages in secretarial courses and who have time available to work on the various jobs. From this work the girls receive actual work experience, learn many valuable pointers, and acquire greater production speed. Mrs. Myers is advisor of this group.

Karla Dusek, Kathy Legan, Mary Ellen Hejduk.

Every year two student announcers are appointed by the principal. Each morning these student announcers inform Highlanders of coming school events, activities, and other special announcements.

A student is also chosen to be an office assistant during the lunch hour. This student sells supplies answers the telephone, and does various other office tasks.

Bill Warner, Richard Thomas, Sherry Senz, Sue Josh, Bob Wilson.

Those students interested in library work may fulfill their interest by assisting Mrs. South in the library. They assist by labeling and filing books. Students using the library can depend on these assistants to help them with their reference work and their other library problems.

CHEERLEADERS

HEAD SPIRIT

The athletic department is composed of many teams. The cheerleading squad is one. These girls do not win games or enter competition, but their hard work and teamwork add much to Highland's spirit and lead the student body in cheering for the teams that do compete. With much hard work and determination, they strive to perfect the cheers and to plan pep meetings.

Pattie Snyder, Coralee Wiszt, Kathy Nell, Barbara Bailey, Patty Repp, and Pat Hayden,

Letters and recognition are given each year to the outstanding athletes at Highland. Above, Coach Bechman presents awards to Tim Hood, most valuable back, Lance Copperman, most valuable lineman, and Bill Ranftl, the most improved player.

The All County Team is a team consisting of the most outstanding player in his position. A sports writer selects the boys from various schools in Medina County. He does this by watching certain games and evaluating each player's capabilities. This year Highland was highly represented. The five first-stringers were Dave Cobb, Lance Copperman, John Girman, Tim Hood, and Ken Sciele.

HORNETS HAVE

SUCCESSFUL

SEASON

If winning football games was based on enthusiasm and determination, the Highland Hornets would always be in the winning column. The team always fought to the very end and never gave up. The dividends paid off, too. The Hornets had one of the best seasons ever. The defense and the offense were competently stronger. A spirituous and energetic bunch was a main factor. As a whole, the team was more responsible both mentally and physically.

SPORTS LED

BY LETTERMEN

The Varsity "H" is made up of boys who have earned at least one "H" in either football, basketball, track, or baseball at Highland. There are seven points that build the "H". They are sportsmanship, citizenship, leadership, scholarship, trustworthiness, sacrifice, and reverence. The purpose of this club is to build better citizens through athletics and to encourage participation in all sports. This year the Senior members will sign a role book. Mr. Dave Beckman is the Varsity "H" advisor.

SENIORS

PREPARE

FOR

COMMENCEMENT,

The hour is nigh . . . The Seniors nervously wait under the cafeteria clock that has timed their comings and goings for four long, eventful years.

"Everybody ready?" No, of course not, but they will go anyway.

" . . . There is no future, there is no past. There is only this hour, and it goes fast . . . "

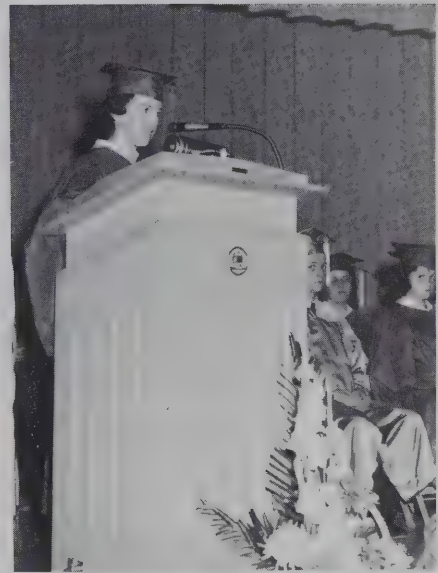

Commencement is seasoned with seriousness, anticipation, joy, and sometimes tears.

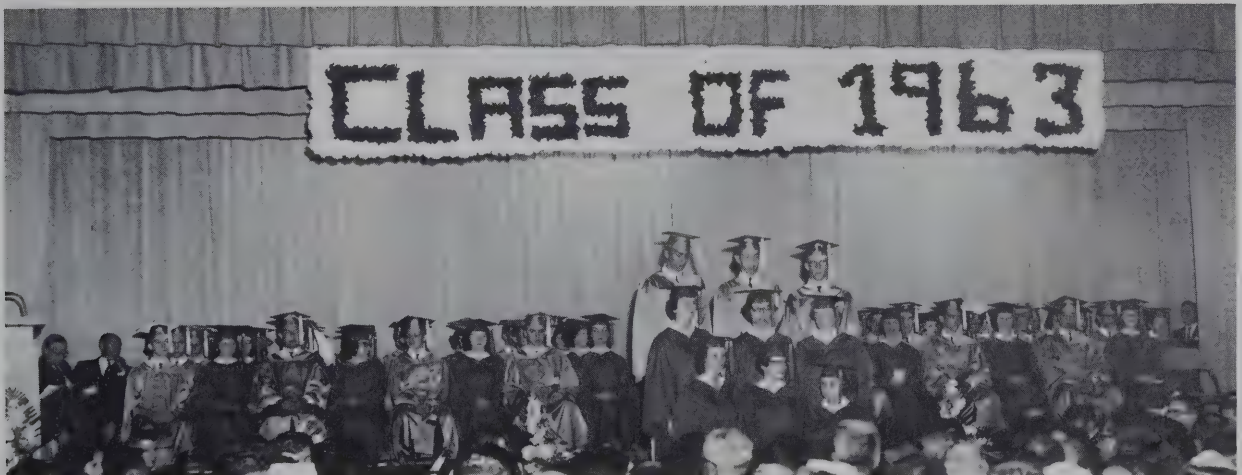

AND THE BIG

MOMENT ARRIVES

Commencement can surely be thought of as a turning point in a person's life. This year it was a very colorful one. The boys were gowned in silver gray and the girls in bright red. Senator Oliver Ocasek gave the address and spoke on the subject, "Freedom Is Not Free."

Valdictorian was Carol Petroc with a 3.962 average.

The Senior mixed chorus sings, "We May Never Pass This Way Again."

SPRING
ACTIVITIES

1962

HIGHLAND

PRESENTS

Excitement, happiness, anticipation, and those "butterfly feelings in the tummy" are all a part of the emotions of the performers of the Concerts. The Spring Concert of 1962 was the result of a year's hard work on the part of both the choral groups and the band. Band director, Lester Eckart and choral director, Richard Herold, were justified in feeling a sense of accomplishment after the band and choral numbers.

Carols and Christmas music were a part of the Winter Concert. There is less time for preparation for this, so that "scared" feeling is a little more severe. This concert, too, was a wonderful success.

A

CONCERT

The mixed chorus is a main feature of the concert.

"Sure you're tired, but really!"

When three sisters decide to sell their chicken farm and move to Florida with one posing as a rich young woman, another as her secretary, and the other as her maid, there are bound to be problems. And there were many problems in "Three Blind Mice", the Junior class play. Mrs. Mary Lou Ludwig was the director and Pat Thompson, student director.

"THREE BLIND MICE"

The "Three Blind Mice" have a difficult time disposing of the "cat".

The Cast: *First Row:* Janet Vanselow, Helen Nell, Pat Cekanski, Carol Petroc, Gayle Smith. *Second Row:* Cathy Frase, Jerry Barucky, Larry Feagan, John Girman, Larry Kraus, Bill Beatty, Barb Day, Karen Root.

Karen Root reads the Senior class will.

ORIENTAL

PARADISE

SETS SCENE

FOR PROM

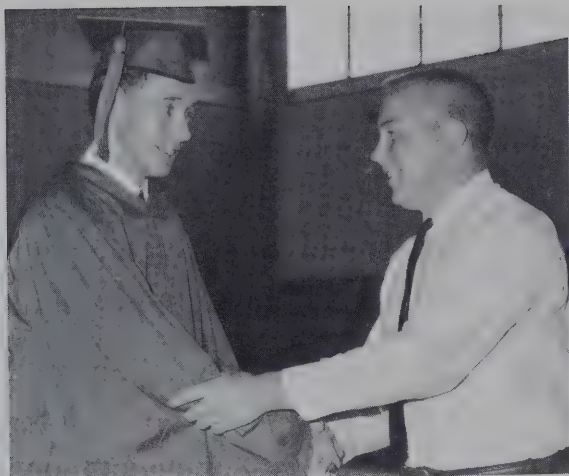

The cars stopped in front of the Akron Tower Motor Inn. Ladies, with gay-colored formals, and their escorts were arriving for the 1962 Junior-Senior Prom. As they entered, they walked into Oriental Splendor. The atmosphere was achieved by Chinese symbols on the walls and an Oriental garden, complete with a pagoda. There were chopsticks on the tables with which one could eat, if brave enough. After the main course, the lights were dimmed and the guests watched with awe their flaming dessert. The dinner was followed by the dance, with music furnished by the Frankie Reynold's band. After the dancing, the "Inn of the Sixth Happiness" was seen at the State Theater. Then, those who hadn't as yet fallen asleep, went bowling or played miniature golf. Finally, a breakfast was held in the school cafeteria. Everyone agreed the night was a success, and the Juniors had as much fun preparing for it as those who attended.

Coach Beckman congratulates Jim Kosman on the many track honors he received.

These students received district and state honors in the Ohio General Scholarship Tests. *First Row:* Dianne Christian, Mary McNeil. *Second Row:* Shirley Shanafelt, Kathy Mladek, Marilyn Barnett, Linda Kaufman, Ken Sandor. *Third Row:* Kathy Legan, John Girman, Mike Kennedy, Peg Long, Tom Stuver.

STUDENTS HONORED AT SENIOR AWARDS ASSEMBLY

1962

These students won honors in the Regional Scholastic Art Awards or the County Art Show: Linda Barron, Kathy Thompson, Mildred Van Meter, Dave Webster, Lynn Melrose, Barry Nelson, Dwight Weigle, Pat Bailey, Mrs. Melrose, art teacher and Kathy Legan.

Highland's Varsity Baseball Team of 1962. *Standing:* Glenn Jones, Jerry Barucky, Jim Klesack, Mr. Kemp, *Coach;* Ray Yunker, Dick Kalmeyer, Roy Whipple, Bob Damon. *Kneeling:* Bill Beatty, Don Goodson.

Jolan Brown
The Valedictorian

Commencement, May twenty-ninth, marked a beginning and an end for the 1962 graduating Seniors. Dr. Roger M. Shaw, Professor at Kent State University, was the guest speaker. "That's a Diploma, Son!" was his presentation to his audience.
